How to make a claim

- Contact the policyholder or your Housing provider for a claim form. Claims are to be notified as soon as possible, with full details to be provided within 30 days of the claim (7 days in respect of riot or malicious damage) including supporting evidence in writing. When you contact us about a new claim you will need to tell us your name and address, the place where the loss occurred and what caused the loss or damage.
- Tell the police if something has been stolen or maliciously damaged.
- We will contact our building services provider to contact you to arrange the necessary repairs, subject to validation that the claim is covered.

Insurance Act 2015

This policy is compliant with the principles of the Insurance Act 2015 law reforms. It also incorporates an ‘opt out’ which aims to promote good customer outcomes. We have opted-out of the ‘proportionate reduction of claim remedy’ available to insurers under the Act. This means that in cases of non-disclosure or misrepresentation which are neither deliberate nor reckless, if we would have charged an additional premium had we known the relevant facts, we will charge that premium and pay any claims in full rather than reducing claims payments in proportion to the amount of premium that would have been charged.

We believe that our ‘additional premium approach’ should, in most situations, be more favourable to our customers when compared to the proportionate reduction of claim remedy. Our additional premium approach does not affect our right to apply the other remedies available under the Act for non-disclosure or misrepresentation.

Handy hints
We have included some practical advice to help you avoid some of the more common accidents and events which occur.

Fire prevention
Over half of all fires in domestic premises start in the kitchen, so take special care when cooking with hot oil or fat and never leave chip pans unattended.
Fit smoke detectors in all rooms (special detectors are available for the kitchen) and test them on a regular basis to ensure that the batteries are working.
Check electrical equipment and follow the manufacturer’s instructions in making sure that the correct fuses are used, and circuits are not overloaded.
Make sure that cigarettes and cigars are always properly extinguished.

Water damage
Find out where the stopcock is and make sure that you can turn it on and off.
Lag exposed water pipes and tanks in the roof area but remember not to use insulation material under the water tank as this may cause water in the tank to freeze.
If pipes freeze, despite your precautions, thaw them out slowly using hot water bottles; never use a blowlamp,

Trees
Structural damage to buildings caused by trees and shrubs is on the increase.
Do seek advice on safe planting distances before planting trees and shrubs in your garden and ensure that they are pruned regularly.

Holidays and other unoccupancy
You are expected to take reasonable precautions to safeguard your premises especially when it is unoccupied, or you are away. These should include not only securing doors and windows but reducing the risk of pipework freezing by either turning off the water system and draining it down, or by maintaining low level heating, particularly overnight.
