Code of Conduct

OSM Africa is dedicated to providing a harassment-free conference experience for everyone, regardless of gender, gender identity and expression, sexual orientation, disability, physical appearance, body size, race, age or religion. We do not tolerate harassment of conference participants in any form. Sexual language and imagery is not appropriate for any conference venue, including talks.

Harassment includes verbal comments that reinforce social structures of domination related to gender, gender identity and expression, sexual orientation, disability, physical appearance, body size, race, age, religion; sexual images in public spaces; deliberate intimidation; stalking; following; harassing photography or recording; sustained disruption of talks or other events; inappropriate physical contact; and unwelcome sexual attention. Participants asked to stop any harassing behavior are expected to comply immediately.

Exhibitors in the expo hall, sponsor or vendor booths, or similar activities are also subject to the anti-harassment policy. In particular, exhibitors should not use sexualized images, activities, or other material. Booth staff (including volunteers) should not use sexualized clothing, or otherwise create a sexualized environment.

If a participant engages in harassing behavior, the conference organizers may take any action they deem appropriate, including warning the offender or expulsion from the conference with no refund. If you are being harassed, notice that someone else is being harassed, or have any other concerns that you are unable to satisfactorily resolve amongst the person(s) involved, please contact a member of conference staff immediately. Escalation to, and incident reporting by a small subset of conference team leaders will ensure that repeat offenders do not go unnoticed.

Conference staff will be happy to help participants contact hotel/venue security or local law enforcement, provide escorts, or otherwise assist those experiencing harassment to feel safe for the duration of the conference. We value your attendance. We expect participants to follow these rules at all conference venues and conference-related social events.

Participants are reminded that they are guests of the host country and should obey the laws here.

OSM Africa

OpenStreetMap is created by people like you.

OSM Africa is a community of OpenStreetMap contributors from various African countries. The aim of this community is to build a network that will collect, contribute, grow and support open data for and in Africa by editing OpenStreetMap. The community is spread out in several African countries with a goal of growing and being established in each African country.

Visit osmafrica.org for news, information on local events and resources on how to build up your local OpenStreetMap community.

Join us, Follow
@osmafrica to stay in touch.

Lightning TALKS

- 1 Présentation de la communauté OpenStreetMap Niger (Fatima Alher)
- 2 Développement de la communauté OSM Madagascar (Andriamiadantso Faneva)
- 3 Zanzibar Mapping Initiative (Idrissa Hamad)
- 4 Analyzing Uganda Schools Data : An Open Data Approach (Kiggudde Deogratus)
- 5 Tags for Africa (Séverin Ménard)
- 6 Kigali mapping (Nyinawumuntu Jeannette Rebecca)
- 7 OSM as a Tool for Public Diplomacy: A US State Department Case Study (Andrew McKenna)
- 8 MapAction and OSM in Disaster Response (Andrew Kesterton)
- 9 Red Cross HOT project in Ushrirombo Tanzania (Emmor Nile)
- 10 Consolidate OSM mapping over CAR: a remote, voluntary driven project (Séverin Ménard)
- 11 Improving the road network in Central Africa (Claire Halleux)
- 12 The Highway TM jobs methodology to allow a complete road mapping over a country (Séverin Ménard)
- 13 FOSS4G 2018 (Geoffrey Kateregga)

Scholarships

Congratulations to our scholarship recipients. They are students, educators, community organizers, government employees, mappers, hackers, activists and humanitarians. They come from all over Africa and beyond, eager to share their knowledge and ask questions about working with OpenStreetMap in their countries.

These scholarships are possible because of the generous donations provided by the Youth Mappers, the Global Facility for Disaster Reduction and Recovery (GFDRR), Mapillary, Michelin, Humanitarian OpenStreetMap Team (HOT), Mapbox, Humanitarian Data Exchange (HDX), Joint Research Centre (JRC) and individual OpenStreetMap community members.

- Abneusa Stefania
- Astou Nathalie Sidibe
